

HSD

Kitchen Remodel Guide

READY FOR A KITCHEN REFRESH BUT WANT TO SAVE \$\$\$? **GLAD YOU FOUND US!**

Thank you for considering us!

Repainting kitchen cabinets and creating phenomenal makeovers without spending major remodel dollars--we are your go to kitchen remodel team that helps you save.

Creating a brand new kitchen space can be overwhelming---but in the next few pages is the exact outline on how to move forward with your project. HSD specializes in three different areas---cabinet refinishing, modifications and wall + trim paint.

Cabinet Refinishing: Changing the color and paint finish of your cabinets. We can also hide your hinges on both MDF or Wood doors--ask us about this process!

Cabinet Modifications: New doors, drawers, and modifying the layout of the kitchen. This can include adding drawers where there are doors or building a new island. The possibilities are up to you. We will always advise if a new build is a better option.

Wall Trim and Ceiling Paint: Our teams can also assist with wall, trim and ceiling repaint. Tired of popcorn ceilings or need 90s faux texture removed from your walls? We can help with a total refresh

Need additional help? We have our go to list of preferred contractors we have finished hundreds of projects with. From countertop fabricators, to tile installers and color specialist--we will provide you our top go to list. We have worked one-on-one with everyone on our list---just tell them HSD sent you! HSD also provides strategy consulting calls if you plan on self managing the project, but need a bit more guidance.

Let's create your kitchen & bathroom dreams....

JULIE HAMPTON
Owner

ERIC WAHLEN
Project Manager

What's the HSD Difference?

Prep

- HSD uses Surf Prep sanding systems in combination with regular sanding to ensure proper adhesion.
- All areas covered with roof underlayment sheeting while our team is in your home for 100% protection.
- Cabinets degreased and deglossed during our intensive cleaning process.

Production

- Professional trained refinishers
- All cabinets sprayed for a fine furniture finish
- Cabinets are generally finished in one week's time frame.

Product + Training

- Professional trained refinishers
- All cabinets sprayed for a fine furniture finish
- Cabinets are generally finished in one week's time frame.

HAPPY CLIENTS

This is just a small sample, We are happy to provide a full recent client list so you can chat with homeowners who hired HSD.

Heidi Wood
★★★★★ 14 weeks ago

Julie and her team completed a major update on our first floor. The quality of work was top notch and the crew was very good to work with. We really appreciated Julie's expertise with picking paint selections, tile, and countertops as well. I would definitely use Hampton Surface Design again for my next project.

Hampton Surface Design (owner)
11 weeks ago

Thank you Heidi, I really enjoyed getting to know you —you were a joy to work with! We appreciate the kind words. Your painted cabinets look fabulous but my favorite is the brand new quartz countertops.

Greg and Lori Brownfield
★★★★★ 14 weeks ago

We love our kitchen! Julie was a great help with picking colors. Who knew there were so many different whites! The whole team was professional and available through the whole process. We could not be happier with the way it turned out.

Hampton Surface Design (owner)
11 weeks ago

I am so happy to hear that! We picked the perfect white for your kitchen cabinets. Thank you for the opportunity to work in your home!

Barb St Peter
★★★★★ 14 weeks ago

HSD made our kitchen refresh easy, and we're thrilled with the finished look. Julie was a huge help with color selection for both paint and tops. Highly recommend their team!

Hampton Surface Design (owner)
11 weeks ago

It was a pleasure working on your kitchen! Your painted cabinets made a huge difference in your kitchen. Thank you for inviting us into your home, Barb!

Amiee Shearer
★★★★★ 3 weeks ago

Julie, Eric, Tracey and crew were simply top notch. A kitchen renovation is an investment of time and money, and you need professionals with the same mindset. Julie's design insight and responsiveness was so appreciated. She was honest in her opinion and never grew tired of answering questions over the course of 6 months. Eric's attention to detail resulted in top quality, factory finished cabinets that are so smooth and durable. He is a talented craftsman and the modifications made are seamless and look as if they have always been part of the kitchen. HSD will offer you personalized attention and the quality you deserve. They give you the ability to trust their knowledge and the process. Couldn't be more please with our kitchen and know it was money well spent. Highly recommend! Thanks, HSD!

4 days ago

Amiee, you made our day with this awesome review! Everyone on the team appreciates it so much. Thank you again for inviting us into your home and trusting on on your kitchen remodel. Painting the cabinets really transformed this entire kitchen! I can't wait to show it off!

Testimonials

CABINET REFINISHING 101

THE HSD DIFFERENCE

TRAINING

HSD has attended training on cabinet refinishing and coatings throughout the US including workshops with cabinet Master painters and Coatings experts Henri Menendez, Martin Allan Hirsch, Gary Lord and more.

HSD has been in business for 20 years this 2020. The business has operated as a full time contracting business and featured in award winning Parade of Homes (6 time winner) and internationally published.

PREP

Plastic and paper covering all surfaces. We create an enclosure so all areas are protected.

Surf Prep Sanding System made for cabinet refinishing. The foam abrasive padding curves around the architecture of cabinetry and molding so all areas are sanded with even pressure.

Cabinets are deglossed, degreased, washed, rinsed. We make sure all contaminants are removed from your cabinets prior to spraying with primer. This is critical for best adhesion.

**One week
to a new
kitchen**

**No brush
and roll**

**100%
sprayed**

SPRAY

All areas are sprayed with a high build primer for best coverage. This avoids thick primer coats that have a tendency to chip. Thin high coverage coats are more durable. Our primer bonds better, dries harder and is specifically formulated to work with HSDs tinted topcoat products. Other finishers use over-the-counter products not specifically formulated to bond to the top coat.

Our topcoats are advanced coatings created in Europe but can be tinted to any brand paint color from Benjamin Moore to Sherwin Williams. We spray a water base 2k poly, it has a bit of flexibility needed when going over a material such as wood---remember wood expands and contracts.

PRODUCT TECHNICAL DETAILS: MILESI

Based in Italy, Milesi is one of the largest brands of wood coatings in Europe and is distributed in 70 countries worldwide. Milesi manufactures some of the highest quality, technologically advanced wood finishes in the world. Having been the standard in Europe for years, the North American market is now embracing 2K polyurethane wood coatings because of superior performance characteristics over conventional conversion varnishes.

Superior chemical and water resistance greater than the best conversion varnishes on the market.

Extreme flexibility means no cracking door joints, stiles, and rails or between panels and frames.

Better durability greatly reduces chipping and scuffing during installation and homeowner use.

"Thick Film" technology means higher build coats which reduce the number of coats needed saving labor and material costs.

Special Italian pigments bond with the catalyst producing a stronger finish especially on dark, deep and bright colors.

No formaldehyde, no odor, lower VOC's, no off-gassing after 24 hour cure.

Non-yellowing, stable sheen, colour fastness and silky smooth fine furniture finish that lasts years.

Scratch resistance, tintable to any color, sheens 10 to 100 degrees.

LAYMAN'S TERMS

We use top tier products resulting in the most durable, smooth refinished wood cabinetry possible. [#thebest](#)

PRODUCT TECHNICAL DETAILS: AGUALENTE

AGUALENTE® PLUS

WATER BORNE PRE-CATALYZED SYSTEM

water borne series

WOOD FINISHING SYSTEMS

M.L. Campbell® Aguamente® PLUS Water Borne Pre-Catalyzed System is a one-component, VOC-compliant coatings system based on European resin technology that provides a hard, durable finish for interior wood surfaces. This technology provides trouble-free application with a beautiful appearance mirroring a solvent-based pre-catalyzed system. Aguamente® PLUS consists of primer, sealer, tintable pigments and clear topcoats with a full range of sheens, which makes it ideal for kitchen, bath or general interior wood surfaces.

AGUALENTE® PLUS OFFERS UNIQUE ADVANTAGES

- **Excellent stain resistance**
- **Sprays, applies and flows like a solvent-based product**
- **Resists yellowing**
- **Fast drying to reduce sand and recoat times**
- **Pigmented base can be tinted to over 1,000 colors**
- **Formaldehyde-free, low-odor formulation**

**HAPS
FREE**

AGUALENTE® PLUS TEST AND PERFORMANCE CHARACTERISTICS:

Aguamente® PLUS has undergone rigorous quality testing to verify performance and application characteristics. The M.L. Campbell® laboratory has formulated Aguamente® PLUS to meet or exceed the required performance level established by KCMA for finishes. Aguamente® PLUS has been tested utilizing the following ASTM and KCMA test methods: 5 = Excellent, 4 = Very Good, 3 = Good, 2 = Fair, 1 = Poor.

Print Resistance

Purpose: Test the ability of the finish to be print-resistant. No print after 24-hour dry time.
Aguamente® PLUS White/Opaque Base: 4
Aguamente® PLUS Clear: 4

Hot and Cold Check Resistance

Purpose: Test the ability of the finish to withstand hot and cold cycles for prolonged periods. Passes 20 cycles.
Aguamente® PLUS White/Opaque Base: 5
Aguamente® PLUS Clear: 5

Cross Hatch

Purpose: Test the ability of the finish to adhere to various substrates and/or finishes.
Aguamente® PLUS White/Opaque Base: 4B
Aguamente® PLUS Clear: 5B

Blocking

Purpose: Test the ability of the finish to withstand any finish defects from stacking or packing after 4-hour drying time.
Aguamente® PLUS White/Opaque Base: 4
Aguamente® PLUS Clear: 4

Wet Heat Resistance

Purpose: Test the ability of the finish to withstand high heat for long periods.
Aguamente® PLUS White/Opaque Base: 4
Aguamente® PLUS Clear: 5

Edge Soak

Purpose: Test a coating's ability to perform in relation to a coated cabinet door's resistance to detergent and water.
Aguamente® PLUS White/Opaque Base: 5
Aguamente® PLUS Clear: 5

Chemical Resistance Evaluation: AWI & KCMA

Purpose: Test the ability of the finish to withstand substances typically found in kitchens and bathrooms. Aguamente® PLUS White/Opaque Base exceeds AWI specifications for System 4 pre-catalyzed lacquer and System 8 water-based acrylic cross-linking chemical resistance. Aguamente® PLUS Clear exceeds AWI specifications for System 2
